*U. S. Marine-Hospital Service.*

## COLOMBIA.

*Report from Bocas del Toro—Fruit port.*BOCAS DEL TORO, COLOMBIA, *July 24, 1901.*

SIR: I have to make the following report of the conditions and transactions at this port during the week ended July 23, 1901:

Number of cases and deaths from yellow fever during the week, 1 case; deaths, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 1 infant; prevailing diseases, malaria and yellow fever. The only death I heard of was the infant of 3 weeks of age; cause of death, infantile diarrhea. General sanitary condition of this port and the surrounding country during the week was increase in malarial fever.

Bills of health were issued to the following vessels: July 17, steamship *Stillwater*; crew, 27; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none; steamship *Banes*; crew, 17; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none. July 20, steamship *Colombia*; crew, 20; passengers from this port, none; passengers in transit, none; pieces of baggage disinfected, none.

Respectfully,

PAUL OSTERHOUT,  
*Acting Assistant Surgeon, U. S. M. H. S.*

The SURGEON-GENERAL,  
*U. S. Marine-Hospital Service.*

## CUBA.

*Reports from Cienfuegos, Casilda, and Santa Cruz del Sur.*CIENFUEGOS, CUBA, *July 29, 1901.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to transmit the following report for the district under my command for the week ended July 27, 1901:

Twelve deaths have occurred in this city, of which 4 occurred in the civil hospital. No contagious diseases reported. Causes of death were as follows: Tuberculosis, 3; enteritis, 2; insufficiency, mitral, 2; hemorrhage, post partum, 1; paludism, 1; tetanus, infantile, 1; pernicious fever, 1; sclerosis, arterial, 1. Death rate per 1,000 inhabitants, 15.64.

Of the 2 cases of yellow fever reported from this city, July 15 and
